PUNTA valuables lockers

a safe and practical solution for storing wallets, mobile phones and other small valuables. The standard equipment of valuables lockers includes Abloy Classic locks and wall mounting kits. The valuables lockers are also available with other lock models and the charging feature.

The basic raw material of locker frames is cold rolled 0.75mm steel sheet, which can be galvanized, if required. The doors are made of 2mm steel and assembled by welding.

The image shows our most popular models, but we can also tailor the products to the customer's needs.
